The Scope of Work Supporting Information states "With this grant and this fiscal year, Wythe County wants to add three additional employees to the Emergency Management Department." The scope of work nor the budget narrative indicate that any CFPF funding received would be used directly to hire or train additional staff.

This application indicates that this project is part of an effort to join or remedy a probation or suspension from the NFIP. Wythe County is already a part of the NFIP and not under probation or suspension according to FEMA's Community Status Book (October 2023).

Wythe County meets the definition of a low-income geographic area with a local median household income of \$52,726 which is 65% of the state median household income (\$80,615).

This application receives a total of 140 points with 100 points for Capacity Building and Planning, 5 points for a moderate social vulnerability, 5 points for being a low-income geographic area and 30 points for community scale benefits.

**Project Total Score\*:** 140
