

1973 - CID515531_VirginiaBeach_CFPF

Review Details

Funding Opportunity:	1447-Virginia Community Flood Preparedness Fund - Project Grants - CY23 Round 4
Program Area:	Virginia Community Flood Preparedness Fund
Application Status:	Under Review
Stage:	
Organization:	VIRGINIA BEACH, CITY OF
Applicant:	Stanley Smith Jr
Internal Status:	
Round:	1
Reviewer:	Sidney Huffman
Type:	Internal
Role:	Primary
Review Status:	Submitted
Submitted Date:	Dec 4, 2023 5:00 PM
Score:	70.00

Projects Scoring - Round 4

Eligibility and Scoring

Eligibility

Is the applicant a local government (including counties, cities, towns, municipal corporations, authorities, districts, commissions, or political subdivisions created by the General Assembly or pursuant to the Constitution or laws of the Commonwealth, or any combination of these)?

Yes = Eligible for consideration

No = Not eligible for consideration

Local Government*: Yes

Does the local government have an approved resilience plan and has provided a copy or link to the plan with this application?

Yes = Eligible for consideration under all categories

No = Eligible for consideration for studies, capacity building, and planning only

Resilience Plan*: Yes

If the applicant is not a town, city, or county, are letters of support from all affected local governments included in this application?

Yes = Eligible for consideration

No = Not eligible for consideration

Letters of Support*: N/A

Has this or any portion of this project been included in any application or program previously funded by the Department?

Yes = Not eligible for consideration

No = Eligible for consideration

Previously Funded*: No

Has the applicant provided evidence of an ability to provide the required matching funds?

Yes = Eligible for consideration

No = Not eligible for consideration

N/A = Match not required

Required Matching Funds*: Yes

Is the project eligible for consideration?

Yes = Not eligible for consideration

No = Eligible for consideration

Project Eligible for Consideration*:

Yes

Eligibility Comments:

Eligibility Comments: None.

General Application Comments:

1. Application is complete, with all required elements included.
2. The line item amount shown for the locality match in the Budget Narrative table is 71%. The match requirement is more than satisfied by existing City funds allocated for this project from Flood Protection CIP (\$38 million) and existing NFWF grants (\$10 million). Reviewer requests Leadership confirmation of how match funding is structured.
3. In the Budget Narrative, the "Estimated Total Project Cost", includes six line items, but no supporting documentation is included for how these values were estimated. The narrative states: "The design engineer's opinion of probable cost for construction is provided." For a project of this scale, the design engineer's basis for probable costs should be included (see "Special Conditions").
4. No adverse impacts based on modeling; see p. 20 of Scope of Work Narrative.

Scoring - Eligible Projects

Applicants may select multiple categories. Total score cannot exceed 100

The category chosen must be the primary project in the application.

Category Scoring:

Acquisition of developed property consistent with an overall comprehensive local or regional plan for purposes of allowing inundation, retreat, or acquisition of structures and where the flood mitigation benefits will be achieved as a part of the same project as the property acquisition - 30 points

Wetland restoration - 25 points

Floodplain restoration - 25 points

Construction of swales and settling ponds - 25 points

Living shorelines and vegetated buffers - 25 points

Permanent conservation of undeveloped lands identified as having flood resilience value by ConserveVirginia Floodplain and Flooding Resilience layer or a similar data driven analytic tool - 25 points

Dam removal - 25 points

Stream bank restoration or stabilization - 25 points

Restoration of floodplains to natural and beneficial function - 25 points

Any other nature-based approach - 20 points

All hybrid approaches whose end result is a nature-based solution - 15 points

All other projects - 10 points

Please Note:

Permanent conservation of undeveloped lands is identified as having flood resilience value by ConserveVirginia Floodplain and Flooding Resilience layer or a similar data driven analytic tool

Developing flood warning and response systems, may include gauge installation, to notify residents of potential emergency flooding events

Project Category*: 30

Is the project area socially vulnerable? (based on ADAPT Virginia's Social Vulnerability Index Score)

Social Vulnerability Scoring:

Very High Social Vulnerability (More than 1.5) - 10 Points

High Social Vulnerability (1.0 to 1.5) - 8 Points

Moderate Social Vulnerability (0.0 to 1.0) - 5 Points

Low Social Vulnerability (-1.0 to 0.0) - 0 Points

Very Low Social Vulnerability (Less than -1.0) - 0 Points

Socially Vulnerable*: Low Social Vulnerability (-1.0 to 0.0)

Is the proposed project part of an effort to join or remedy the community's probation or suspension from the NFIP?

(If Yes - 5 Points | If No - 0 Points)

NFIP*: No

Is the proposed project in a low-income geographic area as defined below?

"Low-income geographic area" means any locality, or community within a locality, that has a median household income that is not greater than 80 percent of the local median household income, or any area in the Commonwealth designated as a qualified opportunity zone by the U.S. Secretary of the Treasury via his delegation of authority to the Internal Revenue Service. A project of any size within a low-income geographic area will be considered.

(If Yes - 10 Points | If No - 0 Points)

Low-Income Geographic Area*: No

Projects eligible for funding may also reduce nutrient and sediment pollution to local waters and the Chesapeake Bay and assist the Commonwealth in achieving local and/or Chesapeake Bay TMDLs. Does the proposed project include implementation of one or more best management practices with a nitrogen, phosphorus, or sediment reduction efficiency established by the Virginia Department of Environmental Quality or the Chesapeake Bay Program Partnership in support of the Chesapeake Bay TMDL Phase III Watershed Implementation Plan?

(If Yes - 5 Points | If No - 0 Points)

Reduction of Nutrient and Sediment Pollution*: No

Does this project provide ?community scale? benefits?

More than one census block - 30 points

50-100% of census block - 25 points

25-49% of census block - 20 points

Less than 25% of census block - 0 points

Community Scale Benefits*: 30

Expected Lifespan of Project

Lifespan Scoring:

10 -14 Years - 3 Point

15 - 20 Years - 5 Points
Over 20 Years - 10 Points

Expected Lifespan of Project*: Over 20 Years

Scoring Comments:

Scoring: Category [Wetland restoration, 25 points + Category, Restoration of floodplains to natural and beneficial function, 25 points + Category, Living shorelines and vegetated buffers, 25 points], 30 pts + SVI, Very Low, 0 pts + NFIP, 0 + Low Inc, 0 pts + RNSP, 0 pts + CSB, 30 pts + ELP, 10 pts = 70

Total Score*: 70

Special Conditions:

1Applicant must submit supporting documentation for Budget Narrative, "Estimated Total Project Cost". Provide supporting documentation for how these values were estimated. Include the design engineer's basis for probable costs and any reports or estimating tools used to develop these values.
