

2009-10 Managed Waterfowl Hunting at Crow's Nest Natural Area Preserve

Lottery Information and Application

This is an opportunity to hunt **Waterfowl** at Crow's Nest Natural Area Preserve in Stafford County, Virginia. Hunters will be selected by lottery. Successful applicants will be responsible for building their own blinds at two assigned locations along the shoreline or in the waters off Crow's Nest Natural Area Preserve. Hunting will be on Wednesdays only from ½ hour before sunrise to sunset during the September early goose/teal season, the October early season, and the general duck season beginning in November 2009 and ending in January 2010. This framework will provide a total of 14 available hunt days.

- To hunt waterfowl at Crow's Nest, hunters must apply and be chosen by lottery. Application deadline is 5:00 PM, August 7, 2009 and a \$5.00 non-refundable application fee is required. A random drawing will be held on August 10, 2009 at 1:00 PM at the Richmond Office of DCR's Division of Natural Heritage located at 217 Governor Street and will be available for public inspection. **Hunters must be 16 years of age or older to apply for this hunt.**
- Selected hunters will have the option of purchasing from one (1) up to three (3) permits @ \$100.00 each, allowing them to form a party consisting of themselves and up to two (2) other guest hunters. The selected hunter (Chief-of-Party) will be responsible for payment to DCR and distributing permits to other party members. **The Chief-of-Party must be present whenever his/her blind is being used to hunt.** However, the Chief-of-Party may provide guest hunter permits to various individuals of his/her own choosing during the course of the season.
- **AS WITH ALL DCR HUNTING OPPORTUNITIES, PROOF OF COMPLETION OF A HUNTER SAFETY COURSE IS REQUIRED FOR EACH HUNTER. HUNTER SAFETY CERTIFICATES MUST BE IN POSSESSION BY EACH MEMBER OF THE PARTY AND PRESENTED ALONG WITH LICENSES WHEN CHECKED DURING THE HUNT.**
- Blinds are accessible by water only. Navigation hazards are present in the area and include but are not limited to large waves, shoals, wooden pilings, fishing nets/gear, stationary blinds, and other structures. Water depth and boating conditions can vary drastically with wind direction, wind speed, tidal changes, fog, and other factors.
- Only U.S. Fish and Wildlife Service approved non-toxic shot is allowed for this hunt. Each hunter is limited to 25 rounds of ammunition in possession per hunt day. The use of dogs for retrieving waterfowl is strongly recommended.
- This hunt is for waterfowl only. All State and Federal migratory bird regulations and laws apply during the hunt. **HUNTERS MUST POSSESS: a Virginia state hunting license, both state and federal migratory waterfowl stamps, a hunter safety course certificate, and a 2009-10 HIP registration number. A HIP number may be obtained by calling 1-888-788-9772 or registering on-line at www.dqif.virginia.gov.**

Hunting Blinds

- Each Chief-of-Party will be assigned two (2) blind sites for the 2009-10 hunting season. The Chief-of-Party is responsible for either constructing a stationary blind or reconditioning an existing blind at each site. Blind site locations will be assigned at the time of the lottery.
- DCR will purchase all blind licenses and place a stake bearing the license at each blind site by August 7, 2009. New blinds must be constructed within 50 yards of the posted site and no later than October 1, 2009. Blind work may begin as early as August 15.
- If blinds are not constructed by October 1, 2009, the Chief-of-Party will forfeit the opportunity to participate in this hunt, permit fees paid will not be re-funded and the blind sites will be re-assigned to another party.
- If the blind is accidentally destroyed during the season, the Chief-of-Party will have 30 days to construct a replacement. If the blind license is lost or destroyed, the Chief-of-Party should contact DCR staff for a replacement.
- While a usable stationary blind must be constructed/reconditioned, hunters may opt to use a licensed floating blind positioned within 100 feet of their stationary blind.

Blind Construction Guidelines

- Each blind must meet the minimum qualifications as defined by the Code of Virginia. The term "stationary blind" means a structure erected at a fixed location for the purpose of hunting and shooting waterfowl. A stationary blind must be (1) of such size and strength that it can be occupied by and conceal one or more hunters, or (2) large enough to accommodate and conceal a boat from which one or more hunters intend to hunt or shoot waterfowl.
- While each Chief-of-Party can re-apply for the hunt in the following year, participation and blind sites will change randomly from year to year. For this reason, it is suggested that blind designs and materials used be appropriate and tailored to this short term (single season) use arrangement. Within two weeks of the end of the regular duck season in January 2010, each Chief-of-Party will have the opportunity to remove his/her blinds and such removal is strongly encouraged; otherwise, blinds will become state property.
- A blind design as simple as four driven and braced 2 x 4's placed in a 4- x 8-ft rectangle and wrapped in burlap (or similar material) meets the legal requirements for a waterfowl hunting blind.

Access to Blinds

- Access to all blinds is by water only. No boat launching facility or land access is available at Crow's Nest Natural Area Preserve and no public launching is available on either Accokeek or Potomac creeks.
- The closest private boat launch facility is Waugh Point Marina (Potomac Creek). There are also launches in Aquia Creek and at Fairview Beach on the Potomac River. Hunters should check with these or other facilities concerning boat launch availability and fees.
- Hunters will need a sufficiently large boat and be skilled in navigating the open waters of the Potomac River and Potomac Creek in order to safely access waterfowl blinds.

Each hunter must abide by and meet all rules and regulations, including but not limited to ammunition restrictions, and possess all necessary licenses, state and federal duck stamps, a valid HIP number, and a hunter safety certificate. **NO EXCEPTIONS.**

Specific information including hunter permits, hunt rules and regulations, and a map showing blind locations will be sent as a packet to each successful applicant following receipt of the \$100 per hunter permit fee due by September 4, 2009. **Questions about this hunting opportunity should be directed to Rick Myers at 804-371-6204.**

How to Apply:

1. **Hunters must be 16 years of age or older to apply for this hunt.** Complete and mail the following application along with your \$5.00 application fee (check only) payable to NAPF (Natural Area Preservation Fund) to:

Attention: Crow's Nest Waterfowl Hunt
Virginia Department of Conservation and Recreation
Division of Natural Heritage
217 Governor Street
Richmond, Virginia 23219

2. Applications will be accepted until the close of business (5:00 PM) on Friday August 7, 2009. A computerized random drawing will be conducted on Monday, August 10, 2009 to select hunters and assign blind sites.
3. Only successful applicants will be notified – within one week of the drawing. **Selected hunters must return the \$100 per hunter Natural Area Preserve permit fee (maximum \$300) by 5:00 PM on Friday, September 4, 2009 to the above address.**
4. Your name can only appear one time in the drawing. **ALL DUPLICATE ENTRIES WILL BE DISQUALIFIED.**
