

Virginia Coastal Resilience Technical Advisory Committee

Quarterly TAC Meeting Agenda

Date: Thursday, March 16, 2023

Time: 10:00 AM

Location: William & Mary
School of Education, Matoaka Woods Room
301 Monticello Ave, Williamsburg, VA 23185

Virtual Public Access: Register at <https://attendee.gotowebinar.com/register/2784592790431000154>

Meeting Agenda

- 1) Call to Order, Roll Call, and Introductions
- 2) Adoption of Meeting Minutes from December 01, 2022
- 3) VDOT Resilience Plan Presentation and Discussion
- 4) Reports from DCR
 - a. Virginia Coastal Resilience Master Plan Update
 - b. Community Outreach and Engagement Plan Update
 - c. Resilience Coordination Working Group Update
- 5) TAC Subcommittees Establishment
- 6) Old Business
 - a. TAC Member Discussion
- 7) New Business
 - a. TAC Member Discussion
- 8) Public Comment
- 9) Adjourn

Public Comment: If you seek to provide public comment, please sign up either in-person or virtually using the Chat window.

VDOT RESILIENCE PLAN

Coastal Resilience Master Plan Technical Advisory Committee

Chris Berg, Director, Office of Transportation Sustainability

3/16/2023

1

Changing Environmental Conditions

Hazards and Threats

- Temperature
- Sea Level Rise
- Increased Precipitation
- Extreme Weather Events
- Rockfall & Slope Failures

Impacts

- Asset deterioration and failure
- Operational, maintenance and emergency management challenges
- Need to identify cost-effective solutions
- Shifting migration patterns, habitat, etc.

<https://wtop.com/virginia/2022/07/crews-still-searching-for-17-people-after-virginia-flooding/>

<https://www.delmarvanow.com/story/news/local/maryland/2021/10/29/flooding-high-surf-forecasted-maryland-virginia-eastern-shore/6190861001/>

2

Virginia Planning Efforts

Commonwealth Planning

- Virginia Coastal Resilience Master Plan
- Virginia Flood Protection Master Plan
- Virginia State Hazard Mitigation Plan
- Resilience Coordination Working Group

Local Planning

- Fairfax, Norfolk, Virginia Beach
- NVRC, HRPDC, MPPDC, etc.

➤ **VDOT plan needed to inform and align agency, local planning efforts**

3

Need for Transportation Resilience

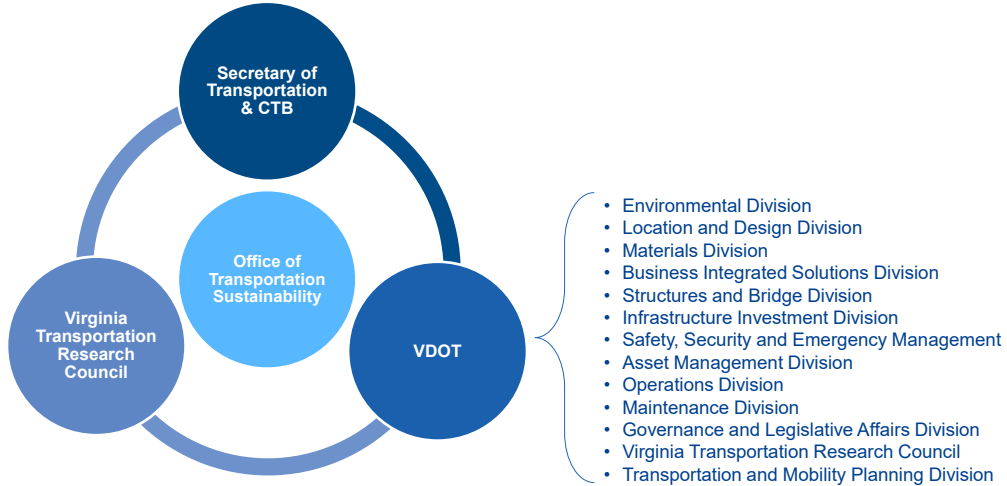

Resilience is the capability of a transportation project or strategy to anticipate, prepare for, respond to, or recover from significant multi hazard threats with minimum damage and disruption to the transportation network, while preserving and incorporating natural and built infrastructure that helps to mitigate these threats.

Incorporate resilience into existing business practices

4

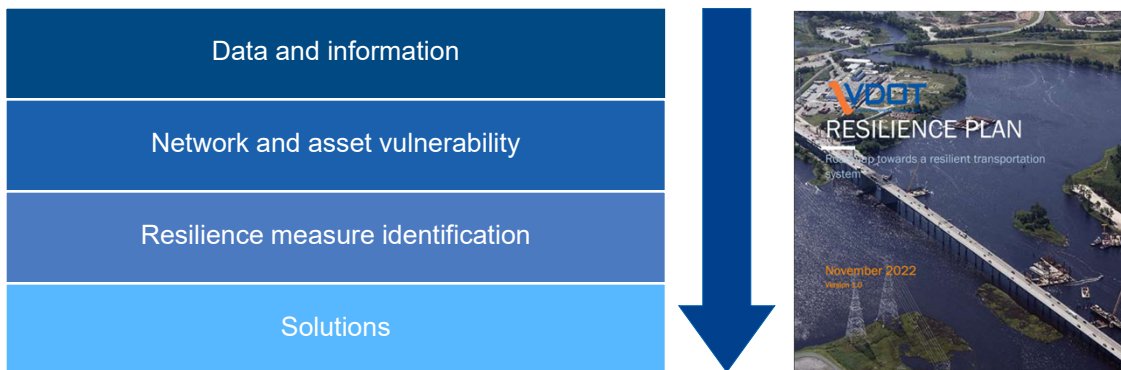

Organizational Support for Resilience Efforts

5

VDOT Resilience Plan

How do we cost-effectively address resilience?

6

Resilience Plan Objectives

Framework for gathering data, developing tools, and implementing strategies

- | | |
|--|---|
| 1. Data Driven Decisions | <ul style="list-style-type: none"> • Authoritative Datasets • Data and Research Gaps |
| 2. Stakeholder Engagement | <ul style="list-style-type: none"> • Coordination with Federal, State, MPO, Local Initiatives |
| 3. Identify At-Risk Infrastructure | <ul style="list-style-type: none"> • Visualization Tool (Exposure, Sensitivity, Criticality = Overall Vulnerability) • Inform focus areas, projects |
| 4. Resilience Measures | <ul style="list-style-type: none"> • Adaptive Design Criteria (Hydraulics, Materials, Structure and Bridge) • Natural and Nature-Based Solutions • Operational, Maintenance, and Emergency Management Measures • Administrative and Policy Measures |
| 5. Feasibility and Cost Effectiveness Analyses | <ul style="list-style-type: none"> • Develop Benefit Cost Analysis Tools |
| 6. Funding Opportunities | <ul style="list-style-type: none"> • PROTECT • Other Funding Opportunities |

Resilience Plan Objectives

- Promote Data Driven Decisions**
 - Authoritative Datasets
 - Identify research and data needs and gaps
 - Resilience Research Committee

Resilience Plan Objectives

2. Engage & Coordinate with Stakeholders

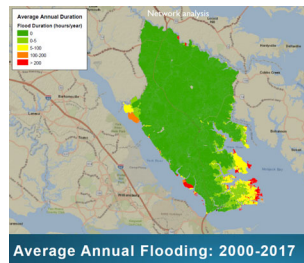

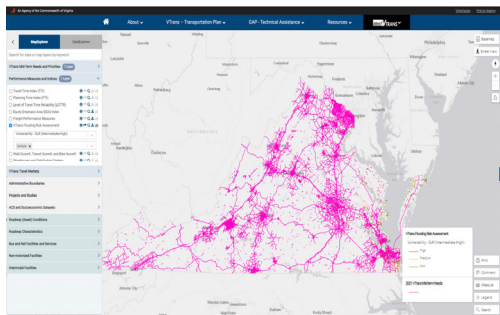

- Department of Conservation and Recreation – VA Coastal Resilience Master Plan Technical Advisory Committee
- Hampton Roads Planning District Commission Working Group
- Northern Virginia Regional Commission Working Group
- Fairfax Infrastructure Advisory Group
- Transportation Research Board Working Group
- State Hazard Mitigation Plan Technical Advisory Committee and Working Group
- Federal Highway Administration
- Other State Agencies
- Metropolitan Planning Organizations and Localities
- Universities
- NGOs and Advocacy Groups
- Public

Resilience Plan Objectives

3. Identify At-Risk Infrastructure and Prioritize Needs

- Exposure + Sensitivity + Criticality
- Network Analysis

Resilience Plan Objectives

4. Finalize Resilience Measures

I. Adaptive Design Criteria

Enhance Criteria for Identified At-Risk Infrastructure, incorporating forward looking conditions

- Structure and Bridge
 - Chapter 33: Consideration of Climate Change and Coastal Storms (Feb 2020)
- Hydraulics, VDOT Drainage Manual
- Materials, Manual of Instruction

II. Other Physical Enhancement Measures

- Flood Barriers

III. Natural and Nature-Based Solutions

- FHWA Coastal Natural and Nature Based
- FHWA Riverine Natural and Nature Based

IV. Operational, Maintenance, and Emergency Management

- Early Warning Devices (Sensors)
- Evacuation Routes
- Damage Assessments
- Floodcast (NCHRP)

V. Administrative and Policy Measures

Resilience Plan Objectives

5. Feasibility and Cost Benefit Analyses

- Feasibility Analysis
- Benefit Cost Analysis (BCA)
- Lifecycle Cost Analysis (LCCA)

6. Funding Opportunities

- Building Infrastructure Resilient Communities (BRIC) Grants, FEMA
- BIL/IIJA (PROTECT)

PROTECT Program

Promoting Resilient Operations for Transformative, Efficient, and Cost-Saving Transportation

- Planning Activities, including Resilience Improvement Plan (RIP) development
 - Vulnerability assessments, technical capacity building, evacuation planning
- Resilience Improvements
 - Flood mitigation, drainage improvements, roadway realignment
- Community Resilience
 - Evacuation route improvements
- At Risk Coastal Infrastructure
 - Strengthening, stabilizing, hardening, elevating, and relocating infrastructure

13

Next Steps

- Continue coordination with Federal, State, and local agencies, MPOs
- Continue coordination with counterpart DOTs
- Outreach and engagement with communities, stakeholder groups
- Continue strategy development and implementation
 - Data and research
 - Identification of at risk infrastructure
 - Resilience measures
 - Planning
 - Design
 - Operations and maintenance
 - Emergency management
 - Benefit Cost and Life Cycle Analyses

14

Coastal Resilience TAC

DCR Update 03/16/2023

1

Presentation Outline

- Coastal Resilience Master Plan Update
- Community Outreach and Engagement Plan Update
- Resilience Coordination Working Group Update
- TAC Subcommittees

2

Virginia Coastal Resilience Master Plan Update

03/16/2023

COASTAL RESILIENCE TAC – DCR UPDATE

3

3

Coastal Resilience Master Plan Update

Phase 2 Code Requirements

- SACAP in coordination with DCR, shall update the Virginia Coastal Resilience Master Plan no later than December 31, 2024 (every 5 years thereafter)
- CRMP shall be a place-specific plan for mitigating severe and repetitive flooding and shall [adhere to the Framework Principles]
- Phase 2 will incorporate:
 - all major flood hazards, including precipitation-driven flooding
 - a comprehensive risk assessment of critical human and natural infrastructure
 - a list of all projects considered and an update of the status of all projects previously implemented
- Phase 2 will implement the Community Outreach and Engagement Plan

[2022 GA HB516/SB551 now §[10.1-658, 659](#)]

03/16/2023

COASTAL RESILIENCE TAC – DCR UPDATE

4

4

Coastal Resilience Master Plan Update

Phase 2 Status Update

- Dewberry Contract
 - Project Database Web Application
 - Funding Database Web Application
 - Pluvial Modeling
 - *Updated Impact Assessment*
 - *Updated Impact Assessment Report*
 - *Updated Web Explorer*
- Additional Efforts Needed via RFP
 - Community Outreach and Engagement
 - Major Flood Hazard - Riverine
 - Phase II Planning and Plan Development

03/16/2023

COASTAL RESILIENCE TAC – DCR UPDATE

5

Coastal Resilience Web Explorer

The screenshot shows the 'Projects and Initiatives' page of the Coastal Resilience Web Explorer. At the top, there are navigation tabs: Introduction, Hazards, Impacts, Community Context, **Projects and Initiatives**, and Funding Opportunities. Below the tabs is a descriptive paragraph about the project database. The main interface is divided into several sections:

- Select Area of Interest:** Includes dropdown menus for 'Commonwealth' (set to Virginia) and 'County'.
- Filters:** Includes dropdowns for 'Category' (set to All), 'Hazard Addressed' (set to All), and 'Project Class' (set to All). There are buttons for 'Reset All Filters & Map' and 'Clear Map Layers'.
- Additional Map Layers:** A list of map layers with expand/collapse icons, including Coastal Floodplains, Community Resource Impact Areas, Critical Sector Impact Areas, Natural Infrastructure Impact Areas, and Coastal Hazard and Social Vulnerability.
- Search:** A search bar with a 'Clear' button and a list of 'Projects and Initiatives (Features: 517, Selected: 0)'. The list includes items like '18th Street Drainage Improvements', '1. Crow's Nest Peninsula and Estuary Conservation', '2019 FMA', '5th Street Improvements', 'Aberdeen Gardens Drainage Improvements', 'Aberdeen Road Disconnect Wet Pond', 'Aberdeen School Neighborhood Park ED Wetland Retrofit', 'Amherst Road Wetlands', 'Annual Coastal Bays seagrass restoration', 'Appomattox River Trail (blueway and greenway)', 'Aquatic Center Parking Lot', and 'Acquisition of LIDAR Data'.
- Map:** A map of Virginia with several locations highlighted in yellow and green, corresponding to the project locations.

6

Coastal Resilience Web Explorer

VIRGINIA COASTAL RESILIENCE WEB EXPLORER Ver 1.0

Introduction Hazards Impacts Community Context Projects and Initiatives **Funding Opportunities**

The Master Plan expanded and enhanced a funding database established by the Virginia Coastal Zone Management Program. This database is intended to provide a comprehensive resource of applicable programs and mechanisms that would support coastal resilience projects in Virginia. **Last updated September 2021.**

Search by Column:

VA Funding for Projects (Features: 96, Selected: 0)

Name	Administering Office	Funding Source	Funding Type	Purpose
Addressing the Impacts of Multiple Stressors on Shellfish Aquaculture Through Research/Industry Partnerships	National Oceanic and Atmospheric Administration (NOAA) Oceanic and Atmospheric Research	NOAA	Federal	Supports: establishing, continuing, and/or expanding collaboration between researchers and shellfish growers in order to address how acidification and at least one other environmental stressor affects the U.S. shellfish aquaculture industry. Project multiple parameter physical, chemical, or biological observing systems and/or conduct multiple stressor experimental responses of this funding opportunity are to (1) build or strengthen relationships between the shellfish aquaculture industry, aquaculture research community (including university, industry, private sector, tribal, state, and/or federal scientists represent perspectives), (2) develop scientific knowledge on the impact of ocean and coastal acidification in combination with other shellfish aquaculture, and (3) create data products, tools, technologies, management practices, or other deliverables that are applicable to building resilience within the shellfish aquaculture sector.
Building Resilience Against Climate Effects: Implementing and Evaluating Adaptation Strategies that Protect and Promote Human Health	National Center for Environmental Health	CDC	Federal	Supports: the building and enhancement of the resilience of U.S. cities and states to the health impacts of climate change overarching strategies. These strategies include 1) collaboration with stakeholders to create a Climate Impact Compendium; 2) implementation of adaptation actions that address the threats identified in the Compendium; and 3) use and dissemination of the Compendium to improve adaptation actions and enhance understanding of effective climate resilience adaptations in public health and

7

Project/Funding Database Web Application

- Provide online access to [Resilience Project and Initiatives](#) and [Funding Opportunities](#) to develop, revise, and archive entries.
- Participant users approved by project owners can maintain projects and initiatives
- DCR managers and other approved participant users can maintain resilience funding opportunities
- All entries submitted to DCR for approval prior to publishing on Web Explorer
- Monitor and coordinate planned and implemented resilience actions
- Estimated completion early September 2023
 - Mock-up and Design: Complete
 - Developing: In-progress
 - Stakeholder Input Group Testing: June/July
 - Deployment: August/September

Precipitation increasing in Intensity, Duration, and Frequency

03/16/2023

COASTAL RESILIENCE TAC – DCR UPDATE

11

11

Pluvial Flood Modeling Overview

- 8 Coastal PDCs. 57 Localities.
- ~400 HUC-12 basins, 5 to 10 sub-basins per HUC-12.
- Up to 63 simulations per sub-basin
 - Duration
 - 2-hr, 6-hr, 24-hr durations;
 - Return Interval
 - 2-, 5-, 10-, 25-, 50-, 100-, 500-year events; and
 - Three future conditions scenarios (at the Intergovernmental Panel on Climate Change [IPCC] Representative Concentration Pathways [RCP]):
 - Median values for 2020-2070 @ RCP 8.5
 - Median values for 2050-2100 @ RCP 4.5
 - Median values for 2050-2100 @ RCP 8.5

12

Data Dev. And Pre-Processing

SCOPE

- Update topo
- Data model development
- Precipitation, infiltration, and roughness data
- Data automation pipelines

DELIVERABLES

- Interim Technical Memo (ITM) #1 – Geom. and Parameterization
- ITM #2 – Model Forcing: Data and Methodology

13

Pilot Hydraulic Modeling

SCOPE

- Develop and test model automation pipeline
- Perform pilot runs for 50 pilot basins, chosen from HUC12s
- Perform final adjustments and post-process initial results

DELIVERABLES

- ITM #3 – Model Dev. Pipeline
- Draft ITM #4 – Pluvial Pilot Findings
- Quality Plan for Pilot
- Pilot Results

14

Independent Technical Review of Pilot Models

SCOPE

- Team member GKY to provide indep. review of draft models for first 5 basins and first 50 basins.
- **End users guide – how to use the models for resilience planning in their communities**

DELIVERABLES

- Tech. memo for first 5 basins
 - 2 weeks after receipt of first 5 basins
- Tech. memo for first 50 basins
 - 3 weeks after receipt of first 50 basins
- End users guide
 - Draft by Aug 25
 - Final by Nov 30

15

Pilot Modeling Coordination and Review

SCOPE

- Coordination on pilot modeling
- **Meetings to discuss findings of pilot with DCR and stakeholders**
- Respond to feedback
- Update ITMs 1-4

DELIVERABLES

- Update ITMs 1-3 including any revisions following feedback
- Update ITM #4
- Meeting notes for up to 10 meetings

16

Study-wide Hydraulic Modeling

SCOPE

- Create and run production models
- Review (automated) models
- Post-process models and develop hosted map layer with download links
- Reporting and data transfer session

DELIVERABLES

- Results transmitted using AWS S3 – models, depth grids, inundation polygons
- Hosted map layer
- Reports
- Data Transfer meeting PPT, recording, and notes

Community Outreach and Engagement Plan (COEP)

Summary Public Comments

Community Outreach and Engagement Plan Overview

- Enactment Clause 3 of HB516/SB551 (2022) the plan shall strive for meaningful involvement by ensuring that
 - affected and vulnerable community residents have access and opportunity to participate in the full cycle of the decision-making process about the development of and updates to the Plans, and
 - decision-makers shall seek out and consider such participation, allowing the views and perspectives of community residents to shape and influence decisions.
- Jointly prepared by DCR and ODOI
- Designed to be a framework for a whole community approach
- Describes overall goals and approach
- Plan development, detailed actions, and deliverables will be provided by contractors selected via a DCR RFP process.

03/16/2023

COASTAL RESILIENCE TAC – DCR UPDATE

19

19

Public Comment Overview

- Public Comment Period
 - 12/30/22 – 1/31/2023
- Solicited public comment via Virginia Regulatory Town Hall, direct email, and existing virtual outreach meetings
- Virginia Regulatory Town Hall
 - 7 Comments
- Flood.Resilience@dcr.virginia.gov Email
 - 6 Emails with attachments (letters and COEP markup)
- Individuals, State Agency, Non-Profit/Governmental Organizations, Regional Planning District Commissions

03/16/2023

COASTAL RESILIENCE TAC – DCR UPDATE

20

20

COEP Comments Outline

- COEP Section Comments
 - What is the Community Outreach and Engagement Plan?
 - What's Been Done So Far?
 - What Do We Want to Accomplish through the COEP?
 - What Actions Will We Take?
- Additional COEP Comments
 - How will outreach and engagement will be incorporated into the Plans?
 - How will DCR measure success and track progress?
 - What level of commitment are you making?

03/16/2023

COASTAL RESILIENCE TAC – DCR UPDATE

21

21

What is the Community Outreach and Engagement Plan?

- Who is the intended audience for the COEP?
- Engagement is missing.
- There needs to be a clear scope of work and schedule for the RFP(s) and the Commonwealth should seek input and feedback on the scope and schedule before the RFP is finalized.

03/16/2023

COASTAL RESILIENCE TAC – DCR UPDATE

22

22

What's Been Done So Far?

- Acknowledge past and current outreach and engagement efforts that local government have and are conducting.
- Acknowledge existing public participation opportunities.

03/16/2023

COASTAL RESILIENCE TAC – DCR UPDATE

23

23

What Do We Want to Accomplish through the COEP?

- It is important to distinguish between overall goals and objectives that support the goal(s).
- The goal should be to implement the direction provided in the law [HB516/SB551].
- The plan lacks critical specifics and supporting information to demonstrate how the objectives stated in the plan are to be achieved and how they support the overall goals.

03/16/2023

COASTAL RESILIENCE TAC – DCR UPDATE

24

24

What Actions Will We Take?

- Avoid **outreach fatigue** in communities that are repeatedly asked to provide similar information through increased communication, coordination, and collaboration with the Whole Community.
- Be explicit on the roles and expectations of the Whole Community.
- Two-way knowledge sharing across the Whole Community.
- Institutional knowledge and contacts increase as the area decreases.
- Partner with existing networks and existing efforts to provide mutual benefits.

03/16/2023

COASTAL RESILIENCE TAC – DCR UPDATE

25

25

What Actions Will We Take?

- Who decides who is already well served and who is not?
- How will the Commonwealth reach beyond the individuals and organizations that are generally represented through various types of stakeholder committees?
- Be prepared to dedicate more resources and potentially develop alternative strategies to reach and engage these communities.

03/16/2023

COASTAL RESILIENCE TAC – DCR UPDATE

26

26

What Actions Will We Take?

- Be prepared to dedicate considerable time and resources upfront in the planning process to identify existing community meeting spaces.
- Be prepared to conduct a variety of activities at multiple times and locations within a community that consider barriers to participation.
- Be prepared to build awareness and a base level of knowledge.
- Be prepared to engage indirectly and focus on shared values.
- Compensate community members for their time to participate.

03/16/2023

COASTAL RESILIENCE TAC – DCR UPDATE

27

27

How will Outreach and Engagement will be Incorporated into the Plans?

- Outline how community feedback will be integrated into the Plans.
- Explain how information collected will be disseminated back to community members for their own planning purposes.
- Be explicit about allowing local knowledge and expertise to shape not just the plans, but the objectives and the processes.
- How will the COEP be updated as a living-document?

03/16/2023

COASTAL RESILIENCE TAC – DCR UPDATE

28

28

How will DCR Measure Success and Track Progress?

- The way that the plan reads right now, it seems that success is measured by process.
- Provide transparent reports on the engagement process to state and local stakeholders as the COEP is updated.
- Consider creating a task force that monitors the plans goals and creates regularly scheduled intervals of feedback from the "whole community" an ongoing basis.
- Consider creating regional citizen and stakeholder committees to host recurring community meetings to collect feedback on the process.

03/16/2023

COASTAL RESILIENCE TAC – DCR UPDATE

29

29

What level of Commitment are you Making?

- Community work is HARD and you must be in it for the long haul or you get surface-level input.
- Maintain on-going relationships with the community-based organizations and groups.
- Invest in in-house outreach and engagement teams.
- Any idea how many communities you would work with?

Resilience Coordination Working Group (RCWG) Update

03/16/2023

COASTAL RESILIENCE TAC – DCR UPDATE

31

31

RCWG Charge

- This Working Group is being established by the Chief Resilience Officer in furtherance of Governor Youngkin's goal of addressing challenges related to flooding and resilience, and in the spirit of engaging collaboratively with the General Assembly on this important issue. The Working Group will have the following purposes:
 - To consider and assess strategies and policies for the Commonwealth to improve intergovernmental and interagency coordination; and
 - To maximize the procurement of federal and private funding opportunities in planning for and implementing flood resilience throughout the Commonwealth.
- The Working Group will focus on improving the flood resilience of both human and natural systems and infrastructures.
- Working Group recommendations will seek to prioritize strategies to protect and enhance the Commonwealth's water quality objectives, as well as natural systems.
- The Chief Resilience Officer, in coordination with the Department of Conservation and Recreation, will report the results of the examination conducted by the Working Group, along with recommendations as may be appropriate, to the Governor, the Chairmen of the House Committee on Agriculture, Chesapeake and Natural Resources and the Senate Committee on Agriculture, Conservation and Natural Resources, and the Virginia Delegation of the Chesapeake Bay Commission no later than November 1, 2023.
