

## **TRC Conference Call Meeting Notes**

**June 25, 2018**

---

### **1 RMP Path To Certification Document**

RMP staff developed a document to assist in moving RMPs into the next phase of certification. The document was provided via e-mail to District technical staff. The document details steps to be taken by the RMP participant, the plan developer and the District TRC, and DCR in moving an RMP from the Plan Implementation Phase to the Certified/Compliance Phase.

### **2 RMP Participant Mailing**

DCR sent a letter and informational enclosure to all RMP participants who have an RMP in either the implementation, certification, or compliance phases. A copy of the letter was provided via e-mail to District technical staff. The letter informed participants of several benefits available to those who either have an approved plan or a certified plan. These benefits are:

- 1) Priority in VACS Cost-Share program
- 2) RMP-2 payment of \$5/acre

The letter also included an double-sided informational card which summarizes the steps to certification on one side and benefits of RMPs on the other.
